Negative Number Addition and Subtraction Math Practice Quiz

Among the various properties of integers, closure property under addition and subtraction states that the sum or difference of any two integers will always be an integer i.e. if x and y are any two integers, $x + y$ and $x - y$ will also be an integer. Example 1: $3 - 4 = 3 + (-4) = -1$; $(-5) + 8 = 3$, The results are integers.
