“There is an inaccurate campaign that’s saying we’re seeing the first crisis caused by clean energy and that this can become a barrier for further policy action to address climate change.

IEA Says Clean Energy Spending Must Triple | OilPrice.com

Various Pros of Wind Energy 1. Wind Energy is a Clean Source of Power. The production of wind energy is “clean.” Unlike using coal or oil, creating energy from the wind doesn’t pollute the air or require any destructive chemicals. As a result, wind energy lessens our reliance on fossil fuels from outside nations as well, which boosts our national economy and offers a variety of other ...
