Fanuc Macro Variables: Note that these ranges may vary across controllers and especially for non-Fanuc controllers! Mach3 has 10,320 variables available, from #0 to #10320. There's not quite the variety found in Fanuc, but still, plenty of system variables are accessible so you can get at things like work offsets.

Parameterized Programming: Macro Variables for Fanuc

FANUC CNC for General Motion. Get the performance and reliability of a FANUC CNC for your general motion applications. FANUC Power Motion i- MODEL A has a built-in ultra-fast PLC processor can process up to five ladder logic programs simultaneously with 24,000-300,000 steps. Suitable for a wide range of general motion applications including winding machines, wire saws, gantry loaders, die ...
