9- Simplicity in business process design. Whenever we look for the complete solution, we fall into the mistake of the complex solution. Complexity will not bring any benefit to the design of your process. Definitely! A complex process or operation results in unnecessary expenses, errors, low productivity and delays.

The 9 principles of Process Design (Recommended)

Design principles need to provide teams with a way to gauge design decisions. Product principles are a set of goals that tie your values to your outcomes. They should be specific enough that you can measure your research, decisions, artifacts, and output against them and judge whether you're living up to them.
