"Automating Inequality is a riveting, emotionally compelling story of vulnerable lives turned upside down by bad data, shoddy software, and bureaucrats too inept or corrupt to make things right. Systems billed as a way to protect the vulnerable in fact, all too often, do just the opposite, trapping them in a modern-day star chamber.

Income inequality is the extent to which income is distributed in an uneven manner. It can be measured by various methods, including the Lorenz curve and the Gini coefficient. Many economists argue that certain amounts of inequality are necessary and desirable but that excessive inequality leads to efficiency problems and social injustice.
