### Whos In Charge Free Will

For an excellent philosophical discussion of free will that follows up very closely on Who's in Charge, see Freedom Regained by Julian Baggini. Baggini even quotes Who's in Charge in his own book. To understand both the science and philosophy of free will, I highly recommend Who's in Charge followed by Freedom Regained.

In this new light, the mind is not a determined entity, but is instead a free agent that is responsible for its actions, and hence capable of being legitimately held accountable for them. This is the argument that Gazzaniga makes in his new book 'Who's in Charge? Free Will and the Science of the Brain'.

Now Hunter decided to move behind the camera for the first time for XConfessions as the director of Hunger - Who's in Charge. Hunger is all about the thrill of putting yourself in a potentially harmful situation, the eroticism in tasting the fruit of the forbidden, even though that fruit might have a bitter taste.

Free will is meaningless, goes the mantra; we live in a “determined” world. Not so, argues the renowned neuroscientist Michael S. Gazzaniga in this thoughtful, provocative book based on his Gifford Lectures - one of the foremost lecture series in the world dealing with religion, science, and philosophy.

## **Who's in Charge? by Michael S. Gazzaniga | Audiobook ...**

The more we learn about the human brain, the more puzzling the question of free will becomes. Forty years ago, cognitive neuroscientist Gazzaniga (Human: The Science Behind What Makes Your Brain Unique, 2008, etc.)—the director of the SAGE Center for the Study of Mind at the University of California, Santa Barbara—pioneered the study of the different functions of the right and left ...
