Look on the back of your unit, and you'll find the model number listed on a silver series rating-plate located above the service valve connections. If your heat pump is geothermal, the model information should be easily found on the front of the unit. Remove the front door and look inside the unit.

Product manuals - Product Documents | Bryant

These are often old furnaces that have standing pilot lights, and they are usually noncondensing furnaces that vent exhaust gases through chimneys rather than through PVC piping. Since 2012, high-efficiency condensing furnaces with AFUE ratings of at least 90% have been increasingly popular, and they require different troubleshooting techniques.
