Zumdahl purposely wrote this book to be confusing. Try reading pp. 668 through 670 in the fifth edition. He wrote this to be especially confusing by not being consistent with phase signs nor giving clear statements, such as "When the phase of the right orbital is reversed and combined with the left orbital."

**Textbook Answers | GradeSaver**  
Although Chemical Principles is intended for students with solid mathematical preparation and prior exposure to chemistry, the author does not assume that students have a sophisticated grasp of chemical concepts.. Approximately 20 percent of the boxed essays are new, presenting everyday applications of chemistry with an emphasis on engineering applications.
