Choose Your Strategy . No chess player can calculate an entire chess game from beginning to end. Even the best computer programs running on the fastest hardware can only "see" a limited number of moves ahead. Beyond what you can calculate, you must rely on strategy to guide you in finding the best plans and moves in a given position.

Essential Chess Strategy and Tactics

Chess strategy is what makes chess such a beautiful game. After the memorized opening moves are played and each player starts to unfold their plan, the real chess begins to take place. Everyone likes to study opening theory and learn end game techniques but the middle chess game is where most games are won and lost. Many games will end in ...
