### Concurrency State Models Java Programs

A race condition or race hazard is the condition of an electronics, software, or other system where the system's substantive behavior is dependent on the sequence or timing of other uncontrollable events. It becomes a bug when one or more of the possible behaviors is undesirable.. The term race condition was already in use by 1954, for example in David A. Huffman's doctoral thesis "The ...

### Race condition - Wikipedia

As a prerequisite course for many master's in data science programs, computability and formal languages takes place during an undergraduate degree or early on during a graduate degree. The course covers the theoretical side of computational models and analysis, teaching students to identify the benefits and limitations of various models.
