Excavations In Small Residential Groups

Caracol is a large ancient Maya archaeological site, located in what is now the Cayo District of Belize. It is situated approximately 40 kilometres south of Xunantunich and the town of San Ignacio Cayo, and 15 kilometers away from the Macal River. It rests on the Vaca Plateau at an elevation of 500 meters above sea-level, in the foothills of the Maya Mountains.

A kiva is a special purpose building used by Ancestral Puebloan (previously known as Anasazi) people in the American southwest and Mexican northwest. The earliest, and simplest, examples of kivas are known from Chaco Canyon for the late Basketmaker III phase (500–700 CE). Kivas are still in use among contemporary Puebloan people, as a gathering place used when communities reunite to perform ...
