Chemistry matter and change chapter 15 assessment answers

Meat: Scavenging and Hunting. Chimpanzees hunt small primates and nonprimate mammals, but only occasionally, and meat is a minor component of their diet (120, 147). In contrast, meat is a critical food resource for modern human hunter-gatherers, along with plant foods (17, 36, 101, 136, 146). The earliest evidence for meat-eating in hominins dates to ~2.5 Mya ().
