### Best Philips Hue set-up: Get the perfect Hue lighting

The Hue Bridge is an essential component to a personal Philips Hue smart lighting system. It is the brains of the operation, communicating with both your smart light bulbs and the Hue app to ensure that everything works together. It also enables smart home automation features like scheduling routines and timers.

### Hue Bridge 046677458478 | PHILIPS

Wait for all four lights to light up on the Hue Bridge, and once that happens, you can begin the setup process. Next, download the new Philips Hue Gen 2 app for iOS or Android.. Be aware that there are a lot of third-party Philips Hue apps available, so if you search for it in the app store, you'll want to make sure to download the official one in order to set up your lights at first.

### How to Set Up Your Philips Hue Lights

Usually you don't have too much choice since the Hue Bridge requires an Ethernet connection and power outlet. So, the common option is to place it close to your router. Regarding the signal range of Hue Bridge, Philips Hue have upgraded the device's firmware in 2018 Q1 to support the Zigbee 3.0 protocol instead of Zigbee light link. It will create a self-forming and self-healing MESH network between all your lights, which means every light becomes a Zigbee signal repeater.
