Notes for Fluid Mechanics chapter of class 11 physics. Dronstudy provides free comprehensive chapterwise class 11 physics notes with proper images & diagram. FLUID STATICS It refers to the state when there is no relative velocity between fluid elements. In this section we will learn some of the properties of the fluid statics. Pressure [...]

Chapter Notes: Fluids Physics Class 11 - DronStudy.com

Let us consider a liquid of density ρ in a vessel as shown in figure. Let us find the pressure difference between two points A and B separated by vertical height h . To evaluate the pressure difference between A and B, consider an imaginary cuboid of area of cross-section a of liquid with upper and lower cap passing through A and B respectively. The volume of the imaginary cylinder is, $V=ah$...

Obtain an expression for the pressure exerted by liquid ...

Start studying Chapter 19: Liquids - Conceptual Physics. Learn vocabulary, terms, and more with flashcards, games, and other study tools.
