Some industries also run other 'reasoning' tests such as Inductive, Mechanical or Spatial reasoning, which are essential for engineering & technical roles. (Note: It's increasingly common for psychometric tests to be completed online before the assessment centre itself and in some cases there will be a second suite of psychometric tests ...

What to expect at your assessment centre: A step-by-step guide

Inductive reasoning tests, sometimes also referred to as abstract reasoning tests, are used to test the logical problem solving ability of each candidate. They're a common part of many job application processes (often used in addition to numerical and verbal reasoning tests), and are particularly seen in jobs of a technical or engineering nature.
