That other end of the stick is a scientific revolution. The transition from extraordinary science to a new normal science represents a scientific revolution. According to Kuhn, a scientific revolution is non-cumulative in which a newer paradigm replaces an older one—either partially or completely.

### Kuhn, Thomas S. | Internet Encyclopedia of Philosophy

The Catholic Church holds no official position on the theory of creation or evolution, leaving the specifics of either theistic evolution or literal creationism to the individual within certain parameters established by the Church. According to the Catechism of the Catholic Church, any believer may accept either literal or special creation within the period of an actual six-day, twenty-four ...

### Wheel of Fortune Event | 2 Word Answers

Adherence to young Earth creationism and rejection of evolution is higher in the U.S. than in most of the rest of the Western world. A 2012 Gallup survey reported that 46 per cent of Americans believed in the creationist view that God created humans in their present form at one time within the last 10,000 years, a statistic which has remained essentially the same since 1982; for those with a ...
