Voodoo Science: The Road from Foolishness to Fraud by Robert L. Park "Voodoo Science" is a very entertaining and informative book that will help people judge which claims are science and which are voodoo. Emeritus professor of physics at the University of Maryland, Robert L. Park take the readers on a ride on forces that seem to conspire to ...

Voodoo Science: The Road from Foolishness to Fraud by ...

The laws of physics draw the line between science, as described above, and voodoo science. As the use of the term "voodoo" implies, with its connotations of being able to produce physical effects by non-physical means, in defiance of any natural explanation, the practitioners of voodoo science claim to have overridden the laws of nature.
