• The air injection system on the 77-82 uses an air pump and is not affected by the installation of the Weber Carb. • 83 and later models use a pulse air injection system. To use this with the Weber Carb you will have to drill two holes in the air filter top and place the two white plastic fittings in the air filter top.

WEBER CARBURETOR CONVERSION KIT INSTALLATION GUIDE
5. After preliminary lean best setting of idle. Check carburetors for synchronization. Commonly done by checking lead or front barrel of each carburetor. 6. You will always want to bring high flow carburetor down to match the low flow carburetor. If this cannot be done you will need to recheck bench assembly for binding throttle in high flow carb.
